

Haelix Stella Valve with LED light

ubbink

Build smart.

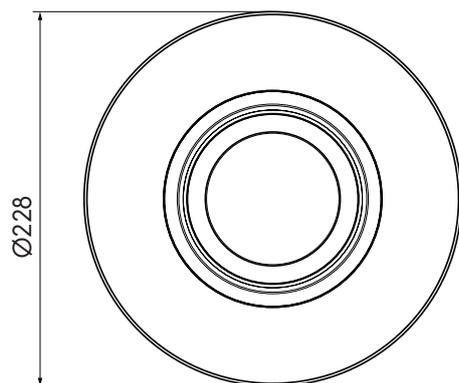

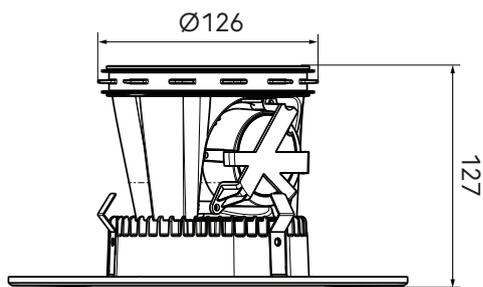

Article number: 188070

Product introduction

The Haelix Stella valve combines air supply, extract, and LED lighting in one sleek solution. It is the ideal solution for new residential construction. The Stella fits effortlessly into any 125 mm valve adapter, no tools required. When used with the Air Excellent system, airflow is easily adjusted via restrictor rings in the distribution boxes. Save time and simplify installation with both ventilation and lighting in one smart design.

- Combines ventilation and LED lighting in a single valve.
- Fits into any 125 mm valve adapter, no tools or additional adapter needed.
- Designed for low sound levels, ensuring discreet performance.
- Features a dirt deposit prevention flange.
- A sleek, low-profile look that blends seamlessly into any ceiling.

Technical specifications

Specifications	
Technical	
Colour	White
Diameter outer	125 mm
Degree of protection (IP)	IP54
Voltage	230V 50Hz AC
Dimmable	<input checked="" type="checkbox"/>
Performance	
Extract capacity	50 m ³ /h
Supply capacity	50 m ³ /h
Temperature resistance (min.)	5 °C
Temperature resistance (max.)	40 °C
Colour temperature	2700 K
Luminous flux	1460 lm
Power	12.3 W
Dimensions	
Length gross	228 mm
Width	228 mm
Height	127 mm
