

Air Excellent Universal Mounting Bracket

Article number: 188396

Product introduction

An accessory used to support all Air Excellent ducts. We advise using one every 2 meters to prevent sagging. The mounting bracket can be connected to other mounting brackets enabling compact installations with parallel duct runs.

- Modular manifolds, which can be used with all 6 duct types
- Semi-rigid plastic ducts on a roll and airtight mechanical connections, which are extremely easy to install
- Low system pressure loss due to radial design
- Airtight (class D/ATC 2 up +/- 2000 Pa) thanks to mechanical connections, which minimises fan energy use and sound production
