

HEAT PUMPS

Kit Aerfoam Insulated Ductwork

Build smart.

Application

Insulated ducts and accessories for the connection to thermodynamic heat pumps. The kit contains all parts for the perfect connection.

Advantages

- Silent: absorbs aerodynamic sound
- Efficient: no pressure loss thanks to smooth inner wall
- Insulated: thermal insulated ducts and airtight accessories
- Easy assembly: light and soft material
- Easy to shorten and anti-shock

Specifications		
Application	kit for connection to thermodynamic hea	t pumps
Components	2x insulated duct 2x insulated bend 4x connector 2x airtight collar 2x wall terminal	
Material	insulated ductwork wall terminal	EPE inox
Diameter	160 180	

Dimensions										
Insulate	d duct									
[mm]	А	В	С	D [kg]						
Ø160	160	192	2000	0,53						
Ø180	180	212	2000	0,67						
insulate	d bend									
[mm]	А	В	С	D	Е	F	G			
Ø 160	274	192	60	140	160	189	30			
Ø180	298	212	65	153	180	206	30			
Wall terminal										
[mm]	А	В	С	D	Е					
[mm]
