

Bird Comb Filler (BCF55)

Introduction

The Ubbink Bird Comb Filler prevents the ingress of birds between the underside of profiled tiles and the underlay on pitched roofs.

Manufactured in 1.0m strips, it is predrilled ready to fix to the top of the fascia and the teeth of the comb prevent birds from entering and nesting in the spaces under tile profiles.

Product features and benefits

- Prevents ingress of birds into the batten cavity
- Suits most profiled tiles

Application

- New build and refurbishment
- Profiled tiles

Material

- Rigid Polypropylene

Weight

- 0.08kg per unit
- 20kg per box

Packaging

- 300 x 1m lengths per box
- 6300 per pallet

Colours

- Black

Product Code

- 200951

Dimensions

- H: 57mm x D: 26mm x L: 1m
