

# HIGH TACK

## Adhesive sealant

### Introduction:

Ubiflex High Tack Adhesive has been engineered to enhance the watertight integrity and secure the positioning of the Ubiflex.

This advanced adhesive requires no specialised surface preparation and is compatible with all substrates, ensuring optimal performance even under damp conditions.

### Features and benefits:

- It is formulated to be free of isocyanates, solvents, and silicones, making it a safe and environmentally friendly choice.
- Odorless & Non-staining. Neutral behaviour, does not attack support surface
- High mechanical and dynamic stress resistance
- Shock and impact resistance

### Technical specifications

Ubiflex Adhesive	
Features	No substrate preparation is required
Supports	Can be applied to most surfaces
Capacity	A 290ml cartridge, dispensing approximately 5 to 6 metres of adhesive bead.
Packaging	12 pieces per box
