

Air Excellent AE34C - AE34C Crossing Kit

Article number: 188181

Product introduction

The Air Excellent AE34C crossing kit enables the connection of two AE34C semi-rigid ducts in tight spaces, minimizing height to just 50mm to bypass obstacles. The kit includes a connector, two AE34C seal rings, and two AE34C click rings for a secure, airtight connection between the ducts and the connector.

- Seamless integration into the Air Excellent system for effortless connection
- Minimizes system pressure loss with its efficient radial design
- Ensures airtightness with mechanical connections, reducing fan energy use and minimizing sound production

Product dimensions

Safety, Health & Environment

The Air Excellent system is designed with flexible polyethylene ducts made from 100% virgin, non-recycled material that is fully recyclable, non-toxic, and anti-microbial. This durable material resists aging when shielded from sunlight, ensuring long-lasting performance and safety.
