

Aerfoam 200 Bend 90°

Article number: 188227

Product overview

The Aerfoam 200 mm 90° bend allows directional changes within the Aerfoam system. Made of expanded polyethylene (EPE) duct, it minimises the risk of condensation and energy loss. It is very light and extremely easy and safe to install. All Aerfoam parts connect to each other using strong, airtight mechanical connections. They can also be securely mounted to walls or ceilings using brackets. Aerfoam is ideal for both central mechanical ventilation and domestic hot water heat pump systems.

- Insulated to minimise the risk of condensation and energy loss.
- Easy mechanical connection and mounting.
- Lightweight and easy to cut, ensuring quick installation.
- Impact resistant.
