# Solar Roof Tile 15-55°

Article number: 770207

Product introduction

The roof tile allows secure cable and pipe penetration for solar panels, heat pumps, and air conditioners. It supports up to two cables with a maximum diameter of 50 mm, preventing tile breakage and cable wear by eliminating the need to route cables between tiles. The integrated Ubiflex waterproofing flashing ensures a watertight seal and adapts seamlessly to the tile's shape.

- Watertight connection
- No risk of tiles breaking
- No deterioration of cables over time
- U.V. resistant
- Easy and quick installation
