

Air Excellent Valve Adaptor Extension 125mm

ubbink

Build smart.

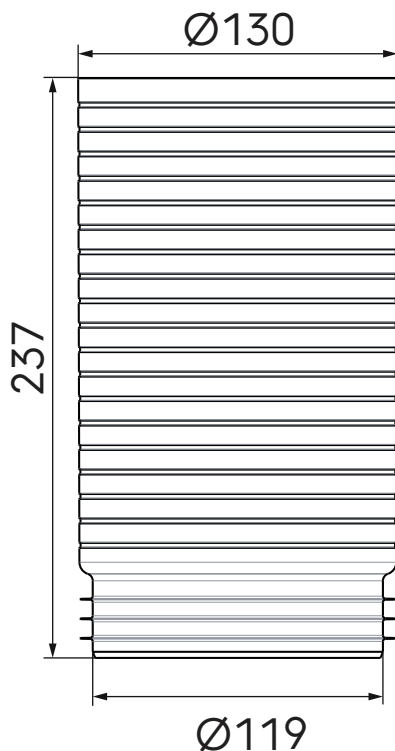

Article number: 188182

Product introduction

The Air Excellent extension is designed to extend the valve adaptor by 200mm. It is easy to cut and connect to the rest of the Air Excellent system, adapting seamlessly to various site and configuration requirements. With its 125mm diameter, it facilitates quick and easy fitting of our Haelix high-performance extract and supply valves.

- Easily assembled with the valve adapter for quick setup
- Simple to cut to desired length for seamless customization
- Ensures airtightness with mechanical connections, reducing fan energy use and minimizing sound production
- Certified by TÜV SÜD

Product dimensions

Safety, Health & Environment

The Air Excellent system is designed with flexible polyethylene ducts made from 100% virgin, non-recycled material that is fully recyclable, non-toxic, and anti-microbial. This durable material resists aging when shielded from sunlight, ensuring long-lasting performance and safety.
