

UB19 HOODED TILE VENT LUDLOW MAJOR (MLM)

Introduction

The UB19 is a streamlined hood suitable for most finishes and has a free vent area of 22,000mm². This unit allows less vents to be used to meet British standards due to the higher free vent area. UB19's are suitable for roof pitches from 20-55° for tile and 23.5-55° for slate.
